PROFILE

Senior Full-Stack Software Engineer with over 10 years of experience in designing and developing SaaS platforms, complex web applications, and systems based on secure REST APIs.

Specialized in PHP (Laravel), JavaScript (Vue.js), modular architecture, and financial system integrations.

Experienced in working remotely with Canadian and European companies, I have a strong ability to design robust, scalable, and high-performance solutions used by thousands of users.

EDUCATION

Bachelor's Degree
Software Engineering
Université DEFITECH
Lomé, Togo
