For more than 07 years, I have put my curiosity and my creativity at the service of the IT world. During this period I worked in different environments, from large companies to start-ups. I am a multidisciplinary, motivated and self-taught professional who enjoys solving problems.

Creative, experienced in every stage of the web project development cycle, I merge a passion for usability and user experience with technical knowledge to create cool digital experiences.

Naturally dynamic, sociable and cheerful, I aspire to join a rewarding team and to carry with them motivating projects!
